Year 6 - Term 2

Due date Monday 16 July 2018

Student's name:.....

Class:.....

Subject teacher: Mr. Sultan

Translate the following sentences into Arabic language.

ترجم الجمل التالية الي العربية

Kangaroo animal

1. Kangaroo is a common animal species found in Australia and New Guinea .
The baby kangaroo is known as joeys.

2. Types of kangaroos : there are four types of Kangaroo: the Red kangaroo,
east grey kangaroo, Western grey kangaroo and Brown kangaroo.

3. Features of a Kangaroo: A kangaroo has heightened hearing that is more
powerful than humans. It has a great ability to move its ears in different
directions. Kangaroos have very strong legs that can jump high and run at a
maximum speed of more than 65 km. Kangaroos can swim and they also eat
grass, which makes them halal. The kangaroo is also a social animal residing in
groups.

4. A kangaroo cannot walk backwards which is why it is considered an
important component of the national symbol of Australia, as it represents the
country always moving forward and never going back. The kangaroo appears on
Australian postage stamps and coins. The Australian airline Qantas also uses
kangaroo's as its symbol.
