## Holiday Homework Term 2

### Mathematics – 2018

#### Instructions:

**Please read the questions and instructions carefully before doing your work**

**You have a mini-project (not for EAL) and some tasks in Mathematics to complete**

**Due Date: 16 July 2018**

Name: \_\_\_\_\_

Class: Grade 6 \_\_\_\_\_

Date: \_\_\_\_\_ 16 July 2018

# Holiday Project

## Planning A Super Holiday

### Objectives

Upon completion of this lesson, students will be able to:

- ! Use the internet to research vacation costs
- ! Plan for a vacation
- ! Budget for a vacation

What to do?

Everyone needs a vacation at some time. For this project, students will have the opportunity to do just that. Students will research a vacation destination of their choice and what it takes to get from here (Australia) to there (planned destination).

**They have to plan a vacation for a family of four (2 Adults, 2 Children).**

Each student will have a budget of *Australian \$10,000* to pay for transportation, sightseeing, souvenir shopping, lodging, etc.

After the destination has been chosen and approved, the research begins. Students should find the required information and complete the project using the directions/guidelines given to them to help them plan. Students must remember to site all sources in a bibliography at the end of the project.

For this project, students will document the results of their researching efforts by creating a digital, multimedia travel presentation using PowerPoint or other presentation programs.

### Directions (Guidelines) and Assessment:

**Remember to stay within your budget of \$10,000**

### Destination

1. Vacation destination (1 point):
2. Why are you traveling to this place (2 points)?
3. Number of people vacation is planned for (1 point):
4. Budget amount (1 point):

## Dates

5. Dates for the trip (1 point):
6. How many days and nights (1 point)?

## Weather

7. Characteristics of typical weather (3 points):
8. Source (1 point):
9. For the climate you are vacationing to, what 3 specific items will you need to pack (3 points)?
10. Do you already own these items? If not, estimate how much this will cost to be figured into the budget (2 points).

## Cost

11. How much was spent and what's the balance (1 point):

## Transportation

Mode of Transport	Price per Ticket / per day (rental)	Total Cost
Flight		
Bus		
Train		
Car		
Others		

## Accommodation

Place(s) of stay	Cost per night	Total Cost
5* Hotel		
4* Hotel		
3* Hotel		
Budget Hotel		
Apartments
