**Complete your homework on time and hand in on 24 **April 2019****

Name: \_\_\_\_\_

Class: Grade 6 \_\_\_\_\_

Date: \_\_\_\_\_ March 2019

## Holiday Project - Mathematics

# AROUND the WORLD

## in ONE DAY

Choose one country from each of these continents (Asia, Europe, North America, South America and Africa) and find out its total population, land size, national flag and its local time.

Create a table comparing the population of the different countries you have chosen and present them in the form of a bar graph (please include Australia)

**If it's 10 pm in Melbourne, list the local time in each of the countries you have chosen and specify the time difference in terms of hours and minutes (using a table)**

You may present your research and information in the form of a PowerPoint presentation or a chart/poster highlighting all the required information with suitable heading and sub-headings.
